

Dear Dino,

I am delighted to hear from you. I liked your ideas last year. Now I am thrilled with them. I am trying to get several papers together that amplify my point of view. These I would like to put in a CD. I am choosing the CD format because it would permit the inclusion of illustrations, color, black and white and line drawings which book publishers sometimes exclude because of the cost. Also, I think the time to get it in the hands of the public would be considerably shorter. Your paper has great value for JVL, also. Format can be determined later. Let me know if you are interested in my CD, or would you prefer to just get your paper ready for JVL? Maybe we can work out a way to do both.

I was slow in getting to my e-mail this week. I wanted to send an answer as quickly as possible. I'll write more fully very soon.

Love, Lida
