

# HOW

do we enable world-wide  
**CREATION and STRUCTURING**  
of knowledge?

Our strategy combines

← **METHODOLOGY** (theory + methods) and  
**APPLICATIONS** (examples + tools) →

**Learn more in this article**

**THEORY** explains why and how knowledge needs to be created and information structured.

**METHODS** provide the means for creating knowledge and structuring information.

**METHODOLOGY PROTOTYPE** POLYSCOPIC MODELING

Information is created based on multiple ways of looking, or SCOPES.

The high-level information, like the view from a mountain top, provides VISION and ORIENTATION.

# HOW

do we enable world-wide  
**CREATION and STRUCTURING**  
of knowledge?

Our strategy combines

- ↙ **METHODOLOGY** (theory + methods) and
- APPLICATIONS** (examples + tools) ↘

## METHOD- OLOGY

**THEORY** explains why and how knowledge needs to be created and information structured.

**METHODS** provide the means for creating knowledge and structuring information.

**METHODOLOGY PROTOTYPE** POLYSCOPIC MODELING

Information is created based on multiple ways of looking, or SCOPES.

The high-level information, like the view from a mountain top, provides VISION and ORIENTATION.

## APPLI- CATIONS

**EXAMPLES** show that structured information can make a large positive impact.

**TOOLS** allow people to create structured information and induce patterns of use of technology which support information structuring.

**APPLICATION PROTOTYPES**

**FUZZZY.COM**

**KEY POINT DIALOG** WIKYPODIA.ORG

**FLEXPLeARN** FLEXIBLE LEARNING

**APRESBOURDIEU** SCIENTIFIC COMMUNICATION
