

## Bibliography, Dag Normann

1974

1. With J. E. Fenstad  
On absolutely measurable sets  
Fundamenta Mathematica 81 pp. 91-98
2. On abstract 1-sections  
Synthese 27 pp. 254-263

1976

3. With J. Moldestad  
Models for recursion theory  
Journal of symb. logic ( JSL ) 41 pp. 719-729
4. Martin's axiom and medial functions  
Math. Scand. 38 pp. 167-176

1977

5. With J. Moldestad  
Gap-phenomena in higher type recursion theory  
In J. Moldestad: Computations in higher types  
Springer Lecture Notes in Mathematics 574 pp. 109-149

1978

6. A continuous functional with noncollapsing hierarchy  
JSL 43 pp. 487-491
7. Set recursion  
In Fenstad & al.: Generalized Recursion Theory II  
North Holland, pp. 303-320
8. With V. Stoltenberg-Hansen  
A nonadequate admissible set with a good degree structure  
In Fenstad & al.: Generalized Recursion Theory II  
North Holland, pp. 321-329

1979

9. Degrees of functionals  
Annals of Math. Logic 16 pp. 269-304
10. Recursion in  ${}^3E$  and a splitting theorem  
In Hintikka & al.: Essays on Mathematical and Philosophical logic  
D. Reidel pp. 275-285

11. A jump-operator in set recursion  
Zeitsch. f. Math. Log. u. Grundl. d. Math 25 pp. 251-264
12. A classification of higher type functionals  
In Jensen & al. Proceedings from 5<sup>th</sup> Scandinavian Logic Symposium  
Aalborg University Press pp. 301-308
13. A note on reflection  
Math Scand. 45 pp. 5-12
14. Lectures on Set Recursion, Proceedings C.I.M.E. Summer School on Recursion  
Theory, Bressanone Italia

1980

15. With S. S. Wainer  
The one-section of a countable functional  
JSL 45 pp. 549-562
16. Recursion on the countable functionals  
Springer Lecture Notes in Mathematics 811
17. The recursion theory of the continuous functionals  
In Drake and Wainer: Recursion theory: Its generalisations and applications  
Cambridge University Press, pp. 171-181

1981

18. Countable functionals and the projective hierarchy  
JSL 46 pp. 209-215
19. The continuous functionals; computations, recursions and degrees  
Annals of Math. Log. 21 pp. 1-26

1982

20. Non-obtainable continuous functionals  
In Logic, Methodology and Philosophy of science VI.  
Proceedings of the sixth International Congress of Logic, Methodology  
and Philosophy of Science, Hannover 1979, pp. 241-249
21. External and internal algorithms on the continuous functionals  
In Metakides: Patras Logic Symposium  
North Holland pp. 137-144

1983

22. R. e. degrees of continuous functionals  
Arch. math. Logik 23 pp.79-98

23. General type-structures of continuous and countable functionals  
Zeitsch. f. Math. Log. u. Grundl. d. Math. 29 pp. 177-192

24. Characterizing the continuous functionals  
JSL 48 pp. 965-969

25. With J.E. Fenstad  
Algorithms and Logic, Kompendium for MA 130

26. MA 350-Fast Innhold

1984

27. With E. R. Griffor  
The definability of  $E(\alpha)$   
JSL 49 pp. 437-442

28. Det uendelige - en matematisk nødvendighet  
Normat 32 pp. 63-70

1985

29. Aspects of the continuous functionals  
Proceedings of Symposia in Pure Mathematics 42  
AMS pp. 171-176

30. With G.-Y. Girard  
Set-recursion and  $\Pi^1_2$ -logic  
Ann. of Pure and Applied Logic 28 pp 255-286

1986

31. Matematiske grunnlagsspørsmål. Undervisningsmateriell i MA 115

1988

32. With J. E. Fenstad  
Innføring i logikk  
Lecture Notes, Institute of Mathematics, Oslo

1989

33. Kleene-spaces  
In Ferro & al. Logic Colloquium '88  
Elsevier, pp. 91-109

1990

34. Formalizing the notion of total information  
In Petkov: Mathematical Logic  
Plenum Press, pp. 67-94

1992

35. With J.-Y. Girard  
Embeddability of  $\lambda$ -types  
JSL 57 pp 659-676
36. Om induksjon, rekursjon og induksjonsbevis.  
Undervisningsmaterieell til etterutdanningskurs i matematikk

1993

37. Langt, og lenger enn langt. Om transfinitt induksjon  
Normat 41 pp 60 - 65

1994

38. With L. Kristiansen  
Interpreting higher computations as types with totality  
Archive for mathematical logic 33 pp 243 - 259

1995

39. With L. Kristiansen  
Semantics for some constructors of type theory  
Behara, Fritsch and Lintz (eds.), Symposia Gaussiana, Conf. A  
Walter de Gruyter & Co, pp 201 - 224

1996

40. A hierarchy of Domains with totality, but without density  
Cooper, Slaman and Wainer (eds.), Computability, Enumerability, Unsolvability  
Cambridge University Press, pp233 - 257

1997

41. Closing the gap between the continuous functionals and recursion in  $^3E$   
Archives for Mathematical logic 36, pp. 269-287
42. With L. Kristiansen  
Total objects in inductively defined types  
Archives for Mathematical Logic 36, pp. 405-436
43. Hereditarily effective tpestreams  
Archives for Mathematical Logic 36, pp. 219-225
44. Recursion Theory  
Notes to Copenhagen Summer School in Logic.

1999

45. A Mahlo-universe of effective domains with totality.  
In Cooper and Truss (eds) Models and Computability, Proceedings from Logic  
Colloquium '97, pp. 293 - 312.

46. The continuous functionals  
in E.R. Griffor (editor) Handbook of Computability Theory, Elsevier,  
pp. 251 -275

47. With E. Palmgren and V. Stoltenberg-Hansen  
Hyperfiniteness Type Structures  
Journal of Symbolic Logic (64) pp. 1216 - 1242

2000

48. The Cook-Berger Problem  
A Guide to the Solution  
In Spreen, Schultz and Greb (editors) Proceedings of the Workshop on  
Domains IV, Informatik-Berichte, University of Siegen.  
An extended version is accepted for the printed edition

49. Computability over the partial continuous functionals  
Journal of Symbolic Logic (65) pp. 1133 - 1142,

2001

50. The continuous functionals of finite types over the reals.  
In K. Keimel, G.Q.Zhang, Y. Liu and Y. Chen (eds.) Domains and Processes, pp.  
103 – 124, Kluwer Academic Publishers

2002

51. With G. Waagbø  
Limit Spaces and Transfinite Types.  
Archives for Mathematical Logic 41, pp. 525 - 539

52. With Christian Rørdam  
The computational power of  $M^\omega$   
Mathematical Logic Quarterly 48 pp. 117 - 124

53. Continuity, proof systems and the theory of transfinite computations.  
Archives for Mathematical Logic 41, pp. 765 - 788

54. Representation theorems for transfinite computability and definability.  
Archives for Mathematical Logic 41, pp. 721 - 741

55. Exact real number computations relative to hereditarily total functionals.  
Theoretical Computer Science 284, pp.437 – 453

56. Om å velge den rette modell for beregnbarhet av de reelle tallene.  
NORMAT 49, pp 97 – 104

2004

57. A Nonstandard Characterization of the Type-structure of Continuous Functionals over the Reals.

Electronical Notes in Theoretical Computer Science 73, pp 141 – 147

58. Hierarchies of total functionals over the reals.

Theoretical Computer Science 316, pp 137 – 151

2005

59. Om mulige og tilsynelatende umulige programmeringsoppgaver.

NORMAT 53, pp 21 – 27

60. Comparing hierarchies of total functionals

Logical Methods in Computer Science Volume 1 (2)

2006

61. On sequential functionals of type 3.

Mathematical Structures in Computer Science, 16, pp. 279-289

62. Computing with functionals- computability theory or computer science?

Bulletin of Symbolic Logic 12, pp. 43-59.

63. Definability and reducibility in higher types over the reals.

In V. Stoltenberg-Hansen and J. Väänänen (eds) Logic Colloquium '03, Lecture Notes in Logic, ASL, pp. 200-220.

2008

64. Applications of the Kleene-Kreisel Density Theorem to Theoretical Computer Science. I: *New Computational Paradigms; Changing Conceptions of What is Computable*. Springer Publishing Company 2008. ISBN 978-0-387-36033-1. s. 119-138

65. Internal Density Theorems for Hierarchies of Continuous Functionals. In A.

Beckmann, C. Dimitracopoulos and B. Löwe (eds.) CiE 2008, LNCS 5028. pp. 467 – 475.

2009

66. A rich hierarchy of functionals of finite types.

Logical Methods in Computer Science Volume 5 (3)

In preparation

With V. Yu. Sazonov

The extensial ordering of the sequential functionals

Invited to a special issue of Annals of Pure and Applied Logic.

With J. R. Longley  
The Computability Theory of Functionals of Finite Types  
To be published in the forthcoming CiE-book series "Computability" by Springer  
Verlag.

Unpublished but cited papers of some significance

With B. Birkeland  
A nonstandard treatment of the equation  $y' = f(y, t)$   
Oslo preprint 1980

With E. R. Griffor  
Effective cofinalities and admissibility in E-recursion  
Oslo preprint 1982

The recursion theory of ptypes  
Oslo preprint 1984

Inductively and recursively defined types  
Seminar report

Categories of domains with totality  
Oslo Preprint in Mathematics no. 4 (1997)
